

“The best way to take control over a people or control them utterly is to take a little of their freedom at a time, to erode rights by a thousand tiny and imperceptible reductions. In this way people will not see those rights and freedoms being removed until past the point at which these changes cannot be reversed.”

Canada's Submission to Sharia Law

Canada does not need special Sharia courts. In October 2017, Ontario Superior Court Justice Robert Smith has already ruled in favor of Sharia law. The Judge found a Muslim man “not guilty of sexually assaulting his wife” because the government failed to prove that he knowingly violated

the criminal code, when “on many occasions [he had sex with his wife] without her consent “as both he and she believed that he had the right to do so.” The man was found not guilty because it was “his honest belief that he had the right to have intercourse with her whenever he wanted.”

ISIL propaganda video calls Toronto's Danforth shooting its top foreign operation of the year

A propaganda video released by pro-Islamic State media praising terrorist attacks abroad names July's mass shooting on Toronto's Danforth Avenue as its most successful foreign operation of the year. This is the third claim connecting the deadly Canadian attack to the Islamic State of Iraq and the Levant, but there is still no evidence from ISIL or its media affiliates that the gunman acted on behalf of any organizations.

Toronto Danforth shooter arrested and released two days before mass shooting: police docs

Two days before Faisal Hussain went on a deadly shooting rampage in Toronto's Danforth neighbourhood, he was arrested for shoplifting but released, according to police documents unsealed on Thursday. The search warrant applications show that Hussain was the subject of several police reports dating back as far as 2010, when he was reported three times as an emotionally disturbed person.

In a bombshell move Monday, a rising star among the Trudeau Liberals crossed the House of Commons floor to join the Conservatives of Andrew Scheer, but not before delivering a scathing indictment of a government she accuses of failing the country. "My oath is to country, not party, and my sacred obligation is to serve my constituents," said Alleslev. "My duty is to stand and be counted. I must do what is right, not what is easy."

An arrangement by Veterans Affairs Canada to help cover the PTSD treatments of a convicted murderer — a man who never served in the military — is prompting outrage among veterans' advocates and members of his victim's family. Last year Christopher Garnier, 30, was convicted of second-degree murder in the strangling death of off-duty police officer Catherine Campbell, Campbell's body was found in September 2015 underneath the Macdonald Bridge in Halifax.

"Killing Canada" (was "Oh Canada!") now available free on Youtube

Michael Hansen, the maker of the important documentary, "Killing Europe", released his second project just this past weekend in Ottawa and Toronto called "Oh Canada!", now renamed to "Killing Canada". This movie exposes some of the truly pernicious machinery within Canada for the purposes of shutting down all discussion on certain transformational subjects. As a nation, Canada does not have a lot of chances left. One more term of Trudeau and its anyone's guess what sort of culture and legal system Canada will have by the end. I suspect only the Swedes know for sure. Please send the link to all you can if you feel as strongly as we do.

FREEDOM OF SPEECH

The European Assault on Freedom of Speech

Post-Brexit Britain will no longer be bound by an EU Code of Conduct that seeks to police the online speech of over 500million citizens and ban 'illegal online hate speech'. After many years, Texas imam Omar Suleiman has successfully lobbied Google into changing the algorithm used to find results on Muslim-related issues. France: Marine Le Pen ordered to undergo psychiatric tests for posting photos critical of the Islamic State

Marine Le Pen, the leader of Rassemblement National, has been left shocked and furious after a court ordered her to be examined by a psychiatrist to determine if she "is capable of understanding remarks and answering questions". The unusual summoning is in relation to Le Pen having tweeted out gruesome propaganda images from terror group Isis that showed the bodies of people having been executed by the so-called Islamic State. And you thought it would stop with the defaming and de-platforming of foes of jihad terror? No. Soviet-style judgments of insanity are next. And what will come after that? The answer is clear enough.

IRAN – THE GRANDDADDY OF TERRORISM

Iran's Proxy Hezbollah Operating Across Western Hemisphere, Including U.S.

Forbes this year deemed Hezbollah the richest terrorist organization with an annual income of \$1.1 billion, generated primarily by "aid funding from Iran, drug manufacture and trade." *Politico* found last year that former U.S. President Barack Obama's administration "derailed" a DEA operation targeting Hezbollah's drug trafficking activities in Latin America to secure approval of the controversial Iran nuclear deal.

The secret backstory of how Obama let Hezbollah off the hook

This is a long article but well worth reading. "Project Cassandra" tells the story of what Obama was prepared to do to secure the Iran deal.

Both Hezbollah and Iran continued to build up their military arsenals and move thousands of soldiers and weapons into Syria. Aided by the U.S. military withdrawal from Iraq, Iran, with the help of Hezbollah, consolidated its control and influence over wide swaths of the war-ravaged country. Iran and Hezbollah began making similar moves into Yemen and other Sunni-controlled countries. And their networks in Africa trafficked not just in drugs, weapons and used cars but diamonds, commercial merchandise and even human slaves, according to interviews with former Project Cassandra members and Treasury Department documents. Hezbollah and the Quds force also were moving into China and other new

markets. But Project Cassandra's agents were most alarmed, by far, by the havoc Hezbollah and Iran were wreaking in Latin America.

The nation that gave the world John Milton and his cry for the "liberty to utter" is now at the forefront of shutting speech down.

UNITED STATES

Can We Solve What's Happening to America?

America, once a first world country, with laws and an advanced culture, features an average of 23 to 27 Muslim honor killings of their women, annually. Additionally, 500,000 cases of female genital mutilation now in the USA, which proves the most barbaric, horrific and God-awful operation on a little girl that the Islamic religion could ever create or import into our country—now flourishes in our country. It's a flat-out assault and battery

on a little girl before she has any choice. Yet, none of our laws will stop it. We're being degraded into a 6th century Dark Ages religion by importing Muslims. We're being so multiculturalized that we face countless parallel societies that possess nothing in common with Americans or the American Way of Life.

\$1.5M settlement for Muslim workers fired in prayer dispute

A big U.S. meatpacker has agreed to pay \$1.5 million to 138 Somali-American Muslim workers who were fired from their jobs at a Colorado plant after they were refused prayer breaks, a federal anti-discrimination agency said Friday. The dispute dates back to the firings of the workers in late 2016 after management rescinded policies allowing Muslim employees to take short breaks for prayer.

Four million Syrians have fled their country; many have either made their way to Europe or settled in Middle-Eastern refugee camps. As the West opens its doors to them, shockingly five of the wealthiest Gulf nations—Saudi Arabia, the UAE, Qatar, Kuwait and Bahrain—refuse to take in a single Syrian refugee. Why? The Fab Five recognize too that radical Islam is a

sword with two edges—one edge capable of cutting non-believers but the other capable of cutting believers as well. It is the latter than concerns them most as it can be used as a weapon to undermine their own authority as a royal dynasty.

Funding UNRWA: Are European Taxpayers Being Taken for a Ride?

The concern of the Arab and Muslim leaders and governments over the defunding of UNRWA stinks of hypocrisy. What have these Arab and Muslim countries done in the past 70 years to alleviate the "suffering" of the Palestinians and help them move on with their lives? Literally nothing. Iran's average annual contribution to UMRWA in recent years has been \$2,000. Here it is worth noting that Iran does spend billions of dollars a year outside its borders in the Middle East. Iran provides weapons and cash to terrorist groups such as Hamas, Palestinian Islamic Jihad and Lebanon's Hezbollah. Iran helps these groups because they want to destroy the "Zionist entity."
