### **Alexandre Bissonnette sentenced to six life sentences with no parole for 40 years**

Justice Francois Huot said that 150 years without parole, longer than any human has lived, could constitute cruel and unusual punishment, but that the minimum sentence of 25 years without possibility of parole would be far too short. He then said that even 50 years without parole was "clearly excessive" but that 25 years was not adequate due to the hateful nature of the crime. Huot also said that he was limited to 25-year chunks of time by legislation, while his preference would be for 35 to 42-years without parole.

### **Bernier Points Out Hypocrisy Of 'Cultural Appropriation' After CBC Promotes 'World Hijab Day'**

People's Party of Canada Maxime Bernier recently tweeted about an example of glaring hypocrisy. For years, the left has kept pushing the 'cultural appropriation' idea, slamming anyone who 'dares' to wear an outfit or style their hair in a way that supposedly 'belongs' to another group. Yet, the left seems to be just fine with people wearing Hijabs, even if the people wearing them aren't Muslim.

In Pakistan's Punjab, indigenous Christians are considered as low caste converts from Hinduism and treated as "untouchables." Canada and the world's democracies should insist that Islamabad quash its blasphemy law that allows for such injustices in the name of race and religion.

Justin Trudeau is the antithesis of Donald Trump. I can hear many cheering. Yet, while Donald Trump is listening to his citizens and working to make life better for Americans, Trudeau is busy currying favour with

## **Quebec Premier Rejects Calls for Anti-Islamophobia Day**

I don't think there is Islamophobia in Quebec, so I don't see why there would be a day devoted to Islamophobia Legault responded when pressed further by reporters. ## **Why Has the Trudeau Government Treated Omar Khadr Better Than Vice-Admiral Mark Norman?**

The Trudeau government has done everything possible to deny Norman – *who has spent years serving our nation* – his right to a true defence. The withholding of documents, the dishonesty, and the refusal to be honest with Canadians has been seen throughout this disgraceful period, as the Trudeau Liberals appear terrified of having all the facts emerge.

Every Canadian needs to stop and think: If the Liberals can treat a Vice-Admiral this way, what would they be willing to do to the rest of us?

## **Once a Person is Allowed to Enter Canada, There's no Turning Back**

Canada's biggest problem when it comes to the national security threat posed by asylum seekers may not be stopping bad guys from entering, but making them leave. News that the government has failed to do thorough national security checks of over 10,000 asylum seekers — including individuals who entered Canada illegally and who arrived with no documentation — could lead to decades of deportation headaches for those who will eventually be found inadmissible.

## **Canada fast-tracking asylum claims from Muslim countries**

Already "overwhelmed by asylum claims from irregular migrants crossing the U.S. border, the Immigration and Refugee Board is fast-tracking" refugees from selected countries. Those countries are: "Afghanistan, Burundi, Egypt, Eritrea, Iran, Iraq, Libya, Pakistan, Saudi Arabia, Sudan, Syria, Turkey, Venezuela and Yemen." Over 26,000 illegals have crossed the border between 2017 and 2018, and only 1% of them have been removed. Most are Nigerians.

It is hard to imagine the depths of evil that must be in these callers’ hearts in order to enable them to do this. ## **We Require an Emblem Calling for a Dialogue on The Ethnocide of EuroCanadians**

And so, what is the role of Canada? Some time ago, intellectuals fondly spoke of multiculturalism as our grand experiment. As a country led so far down the path of globalism, our role is to report the findings of that experiment to the world. In a word, our role is rage. Rage at being shut out of our own future. Rage at being disinherited, deceived, dispossessed and dismissed. Rage at being made apologists for our very existence. And yes, as Canadians, why not let our role be that of a very polite rage? The black awareness ribbon, which is a symbol of mourning, is ideal for that purpose.

## **Alberta: Our 51st state?**

In two significant ways, Alberta is unlike the rest of Canada. First, Alberta is energy-rich. Thanks to a several-decade-old energy boom, Alberta has a high per capita income. This results in the central government in Ottawa sucking taxes out of Alberta. To make matters worse, neighboring provinces have blocked landlocked Alberta from building pipelines for its oil and gas. As for the Trudeau central government, like all progressive

administrations, it is enthralled with the green movement and is anti-fossil fuel in all forms.

It was a double honour to be asked to present an award named after one dear friend to another. Mark Steyn is as formidable a litigant as a polemicist, and I have no doubt that he will prevail, even in so uncivilized a forum as the courts of the United States. His courage and integrity, no less than his virtuosity as a writer and public speaker, and constancy as a friend, have earned the homage of all.

# **FREEDOM OF SPEECH**

## **Elisabeth Sabaditsch Wolff Files an Appeal with the European Court of Human Rights in Islam**

Elisabeth's seminar on Islam was infiltrated by a leftist journalist in October of 2009. A year later she was indicted in an Austrian court for her "hate speech" about Mohammed. She was eventually convicted, and appealed at various levels, until finally her conviction was upheld by the European Court of Human Rights in October of last year.

On January 22 lawyers for Elisabeth Sabaditsch-Wolff filed an appeal of her "hate speech" conviction with the Grand Chamber of the European Court of Human Rights.

I must remind readers that Elisabeth incurred enormous legal expenses to put together and file this appeal with the ECtHR. To contribute to Elisabeth's legal defense fund:

- For those in Europe: [www.savefreespeech.org](http://www.savefreespeech.org)
- For those in the United States: [www.friendsoffreespeech.org](http://www.friendsoffreespeech.org) (tax deductible)

Elisabeth is the canary in the coal mine of FREE SPEECH. We must support her.

## EUROPEAN UNION

### **EU: Going Full Orwell**

The Code of Conduct commits the social media companies to review and remove, within 24 hours, "illegal hate speech". According to the Code of Conduct, when companies receive a request to remove content, they must "assess the request against their rules and community guidelines and, where applicable, national laws on combating racism and xenophobia..." In other words, the social media giants act as voluntary censors on behalf of the European Union.

The initial viral video clip of that confrontation spurred widespread condemnation and death threats against the 16-year-old. Wood's specialty is bringing "aggressive libel and slander suits against media organizations," reportedly.

## **Leftism – Not Just Wrong, But Evil**

At the core of the true leftist is a hatred for anyone and anything that stands in the way of his or her lust for power over others: the nuclear family, Christianity, the Constitution, Donald Trump, etc. As David Horowitz had noted on numerous occasions, during a presidential debate in October 2016, candidate Trump spoke more naked truth about leftists than any establishment Republican would ever have dared when he said that his opponent Hillary Clinton had "tremendous hate in her heart."

Let us zero in on specific, recent examples of the left's cruel methodology. Keep in mind that the contemporary leftist, like Barack Obama and Hillary Clinton, has been mentored either directly or indirectly by the influential, Mephistophelean strategist Saul Alinsky and his book *Rules for Radicals*, whose thirteenth and final rule has transformed the left's entire *modus operandi* into the politics of personal destruction: "Pick the target, freeze it, personalize it, and polarize it." Alinsky dedicated his book, as you may recall, to Lucifer.

After stoutly defending the privacy rights of the San Bernardino jihad mass murderers, Apple turned on a dime and handed over access to all of Roger Stone's data. #### **The European Court of Human Rights Does Not Deserve Its Name**

The recent ECHR ruling against Sabaditsch-Wolff for speaking her mind about Mohammed's marriage to a little girl is not merely a slap in the face to freedom of expression in an academic sense. It also serves to keep silent all those Muslims who are physically and mentally victimized by the practices sanctified in the Quran and by those adopting only the strictest interpretation of Quranic texts. In so doing, the court is giving its stamp of approval for criminal practices, such as paedophilia. Crimes that victimize children must not be tolerated. The European Court of Human Rights does not deserve its name.

The government and French President Emmanuel Macron have been doing everything they can to crush the movement. They have tried insults, defamation and have said the demonstrators were both "seditious people" wishing to overthrow the institutions and fascist "brown shirts". On December 31, Macron described them, as "hateful crowds". The presence of some anti-Semites led a government spokesman (incorrectly) to describe the entire movement as "anti-Semitic".

### **Democrats and Their Media Pretend Muslim Terrorism Is Manufactured**

Ask your friends, family, and neighbors if they're aware that the FBI recently thwarted a Muslim terrorist who allegedly wanted to blow up and shoot up the White House, the Washington Monument, the Lincoln Memorial, and a synagogue. Thanks to state and federal law enforcement, 99 radical Islamic terrorist plots have been foiled since 9/11; had some of the attacks, planned for malls and other highly foot-trafficked locales, not been stymied, the death and injury totals would have likely been in the hundreds. Globally, over 99 percent of terrorism – resulting in death or injury – has been perpetrated by radical Muslims. The U.S. spends billions annually monitoring and fighting Islamic terrorism, not white male terrorism.

### **Stop Medieval Diseases with a Medieval Wall**

Like superstitious dark age types, leftists insist on blaming the typhus outbreaks on global warming, caused by an angry 'Mother Earth' rather than on the very real spread of disease by people. Instead of preventing

the spread of disease, they insist that we must repent for our crimes against the environment, and recycle more, and then the earth will cool and the typhus outbreak will stop. The legalization of illegal migration and homelessness, is leading to a new wave of disease outbreaks. If you want to stop a medieval disease, you might want to start with a medieval wall.

The Muslim Community Patrol will doubtless be on the lookout for incidents of "Islamophobia," that is, anti-Muslim "hate crimes," which is entirely unnecessary, since the NYPD exists, and such incidents are actually quite rare according to FBI hate crime statistics — much less common than incidents of anti-Semitism. On January 15, and well into the morning of the next day, terrorists affiliated with the Somali Jihadi group Al Shabab forced their way into an upscale Nairobi hotel and business centre, killing 21 innocent civilians.

Whichever path Kenya, the United States, the UK, the African Union and other allied forces take, it is important to remember that Al Shabab is more than just a terrorist group. It is the pathological expression of an ancient hatred between tribes and religions that has persisted for centuries, and springs from the roots of a trade whose evils are known only too well to all parts of the African continent.

## **Humpty Dumpty Deserved to Fall**

Much of the #MeToo movement is based entirely in “feelings” of what is or is not “appropriate” speech, tone, gesture or intention. The statement “I felt uncomfortable,” spoken by a woman, holds great social power, sometimes leading to failures of due process that ruin innocent people’s lives. So, it is with Bill C-16. In elevating feelings as the arbiter of a human right, individual comfort trumps individual rights. Which makes it not only a bad law, but a dangerous one.
